

Welcome to the 2009 CSC Winter Workshop.....

## ***The Evolution of Coastal Silviculture: What's New in 2009?***

February 12<sup>th</sup>, 2009 – Vancouver Island University, Nanaimo, BC

In keeping up to the ever changing face of coastal silviculture in BC, the workshop will focus on...

- **The latest Developments in Resource Stewardship Monitoring**
- **Consensus based strategies from the Coastal Regional Implementation Team (CRIT)**
- **Carbon Accounting – how does it fit within the future management of Coastal Forests?**
- **Where are we going in this time of uncertain economic conditions?**

***All this and much more!***

Despite uncertain economic conditions, the Coastal Silviculture Committee is a dedicated group of voluntary resource professionals that is please to provide this continuing education opportunity.

We hope that you find this year's workshop a worthwhile investment of your time.
