

## Coastal Silviculture Committee – Winter Workshop

### February 23, 2016

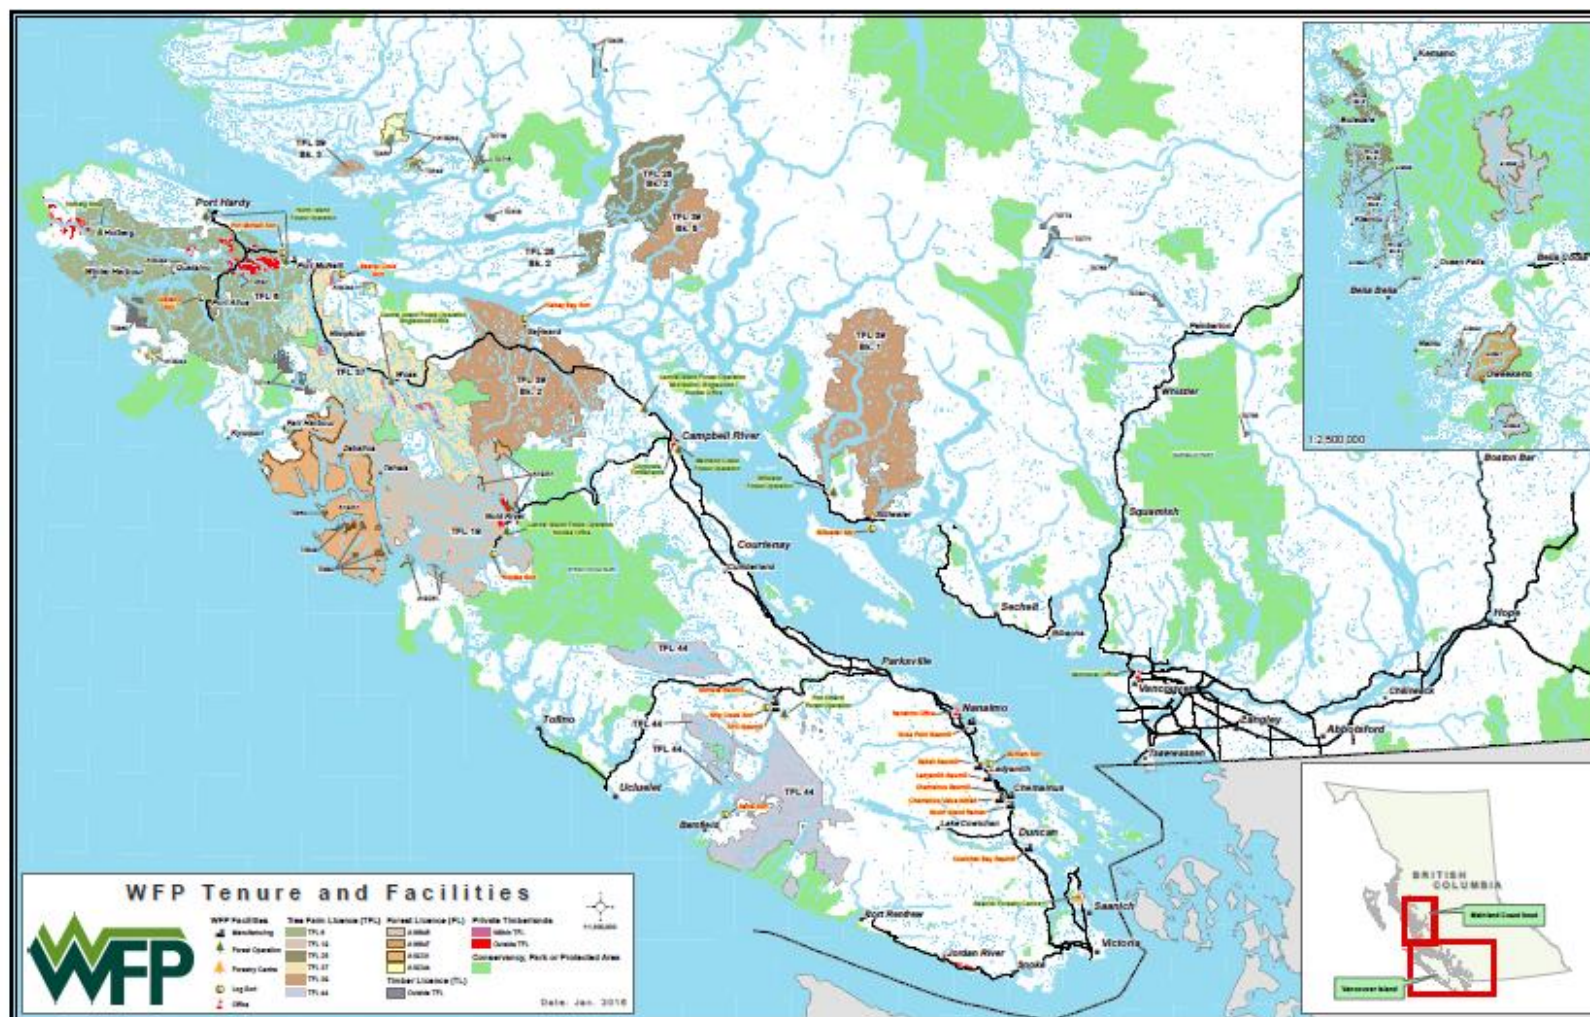

---

## Coastal Silviculture – Winter Workshop

---

WFPs Chief Forester's point of view on how silviculture is being used and /or impacted to manage for multiple values – such as visuals and recreational, relative to the public's expectations.

# Who is Western Forest Products?

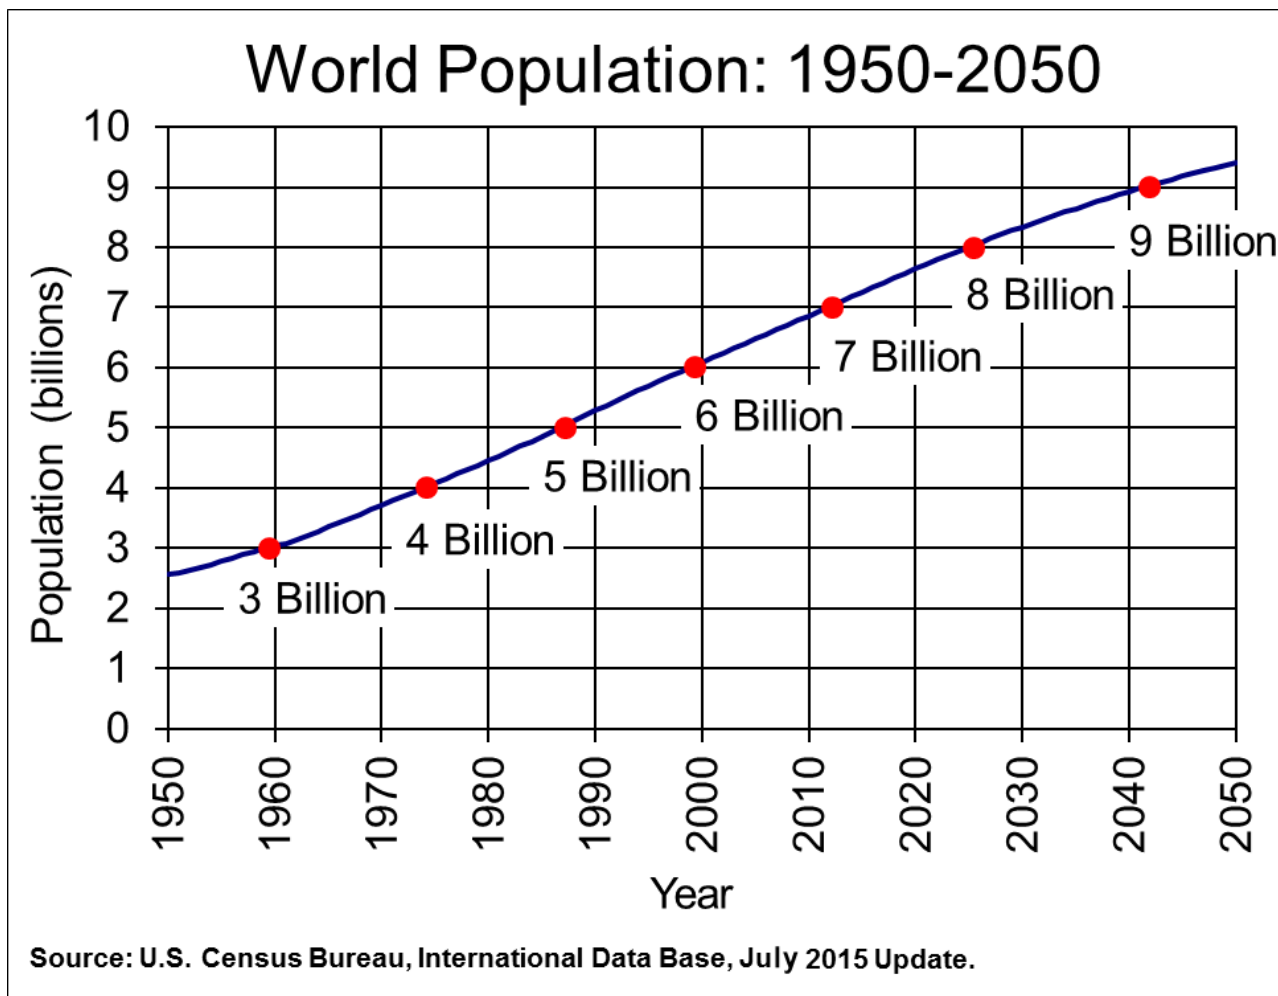

## WFP's Saanich Forestry Centre Marks a Half Century of Growth (September 2014)

## Who is Shannon Janzen?

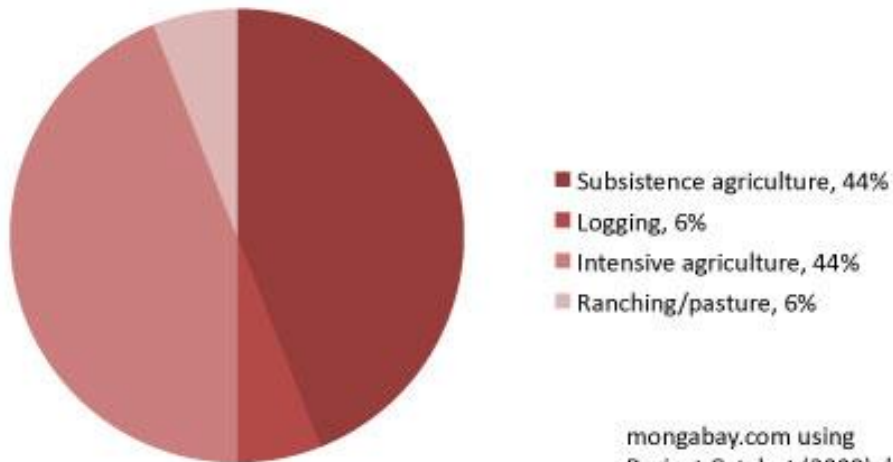

## What do We Mean by Public Expectations?

## Rising Demand - In Search of Sustainable Fibre

Deforestation Drivers in Southeast Asia

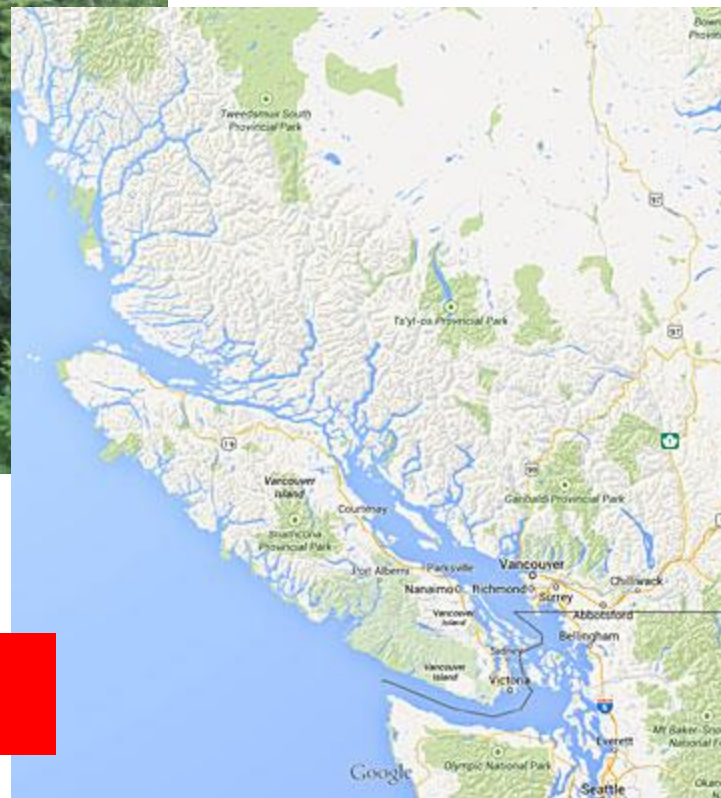

## Rising Demand – In Search of Sustainable Fibre

## Rising Demand – In Search of Sustainable Fibre

## Harvesting Near a Recreational Trail on the Sunshine Coast

*Complaint Investigation #121011*

FPB/IRC/190  
December 2013

Photo 7. Showing trail after blowdown was removed by WFP.

Photo 5. Cutblock near the trail east of Lewis Lake showing a block with retention patches. This block is part of WFP's Variable Retention Adaptive Management Program and is therefore established for research purposes and is not representative of their average cutblock size.

## Local Public – High Expectations

Come and play in the  
**Working Forest**  
WFP

- Powell River Forest Canoe Route
- Sunshine Coast Trail
- Powell Lake
- Your bike trails
- Your ATV trails
- Your fishing spots
- Your hunting spots

**WFP** All of these recreation areas - your favourite weekend destinations, and ours - lie within Western Forest Products' Tree Farm License area. Our deep commitment to this ecosystem and this community means the Sunshine Coast's forests can support both work and play.

## Defining a Higher Standard In Everything We Do
